

## Scorpio Gold Provides Q1 Corporate Update and 2024 Outlook

**April 16, 2024 - Vancouver, British Columbia – Scorpio Gold Corporation** (TSX-V: SGN) (“**Scorpio Gold**”, “**Scorpio**”, or the “**Company**”) is pleased to provide a Q1 corporate update and outlook for its 2024 operations and planned exploration program at its Manhattan Property.

The first quarter of 2024 was a transformative period in which the Company completed its amalgamation with Altus Gold Corp. (“**Altus Gold**”) and closed its [C\\$6M private placement](#), which was [increased from C\\$4M due to overwhelming demand](#). The Company is now recapitalized and in a significantly stronger position, both operationally and financially, to create shareholder value and build on the success of the 2021/2022 work program at its consolidated Manhattan Property (formerly Goldwedge-Manhattan), alongside optionality at its Mineral Ridge Mine and Northstar Property.

*“Scorpio Gold has gotten off to a tremendous start in 2024. We have closed on a significant financing and have a fresh look to management that is committed to organic growth across our portfolio of assets, with a core focus on exploration at Manhattan, alongside development and rerate opportunities at Mineral Ridge,”* said Zayn Kalyan, newly appointed CEO and Director of Scorpio Gold. *“If the pace at which the Company has advanced YTD is any indication of what’s to come, I am confident our growing team at Scorpio Gold will deliver accretive and meaningful shareholder value in the coming months,”* further stated Mr. Kalyan.

### Corporate Highlights

- As a result of increased investor demand, [the announced financing was upsized to C\\$6M and closed on February 23, 2024](#).
- The amalgamation with Altus Gold was completed. The transaction provided the Company with important corporate resources and access to capital, enhanced management, and an option to acquire a 90% stake in the prospective Northstar Gold project, adjacent to the Company’s Mineral Ridge Mine.
- The Company appointed Zayn Kalyan as CEO and transitioned Chris Zerga to the COO role. Scorpio Gold is moving to further expand and strengthen the management team with one or more individuals having strong technical and capital market experience.
- The team is currently conducting an internal review of the [2018 Mineral Ridge updated feasibility study](#) in the context of current economic conditions and gold price.
- The Company is currently in the planning stages for an exploration program for the Northstar Property.

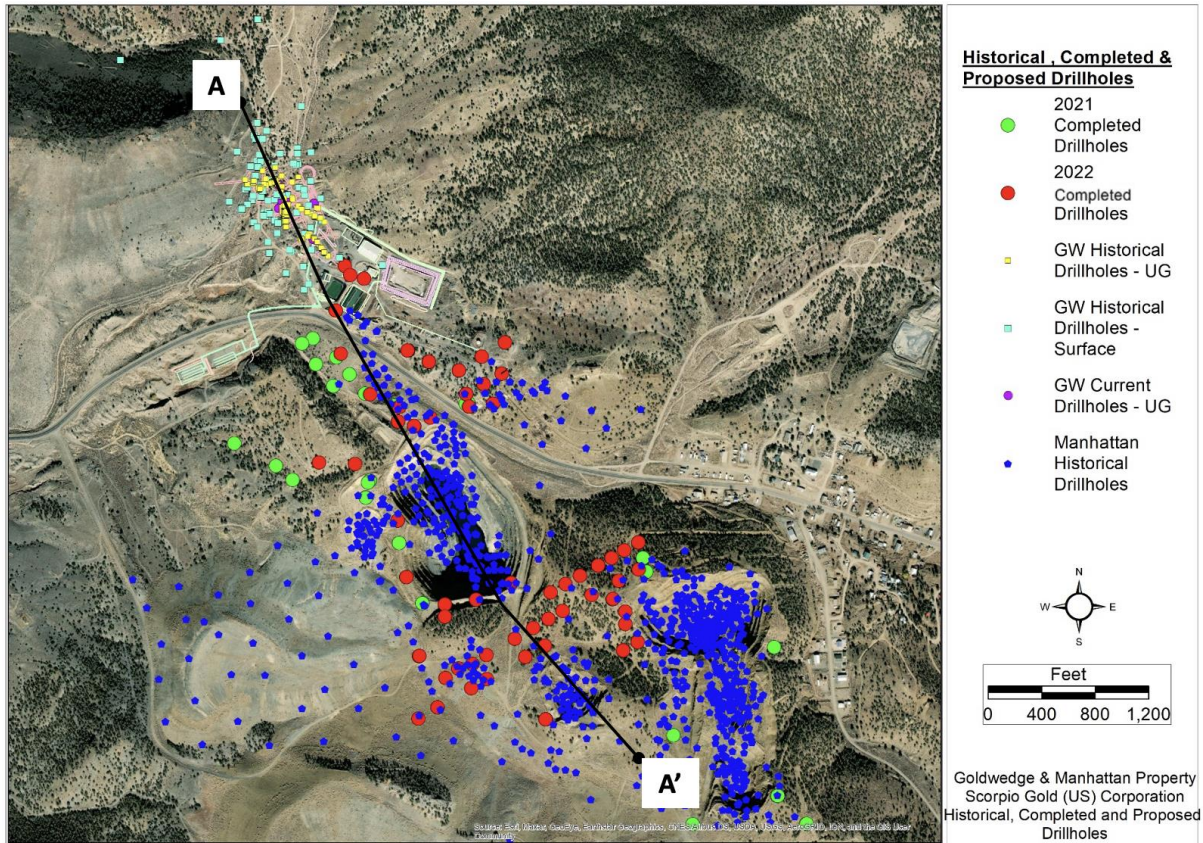

### 2024 Operational Outlook

The focus for the remainder of 2024 will be resource growth and definition at Scorpio Gold’s Manhattan Mine, located in the Manhattan mining district of south-central Nevada, as well as taking action to define next steps at the Company’s fully permitted Mineral Ridge mine, currently under care and maintenance. The Company’s core focus is on conducting a renewed exploration program at Manhattan during Q2/Q3 2024 (the “**2024 Program**”) to continue building on the success of the 2022 program and ultimately work towards a 43-101-compliant resource.

## Highlights from 2022 Manhattan Exploration Program:\*

- **MWRC22-003** - intercepted **27.16g/t over 16.8m**, including **145.74g/t over 3.1m from 59.5m** along the drill hole depth. Additional intercepts contained 2.12g/t over 16.8m, including 9.3m over 1.5m from 80.8m depth along the drill hole.
- **MWRC22-008** - intercepted **4.52g/t over 4.6m from 147.9m** along the drill hole depth and **9.36g/t over 1.5m from 115.9m** depth along the drill hole.
- **MWRC22-010** - intercepted **11.98g/t over 13.7m**, including **39.43g/t over 3.1m from 134.2m** along the drill hole depth. Additional intercepts contained 1.17g/t over 9.2m from 71.7m depth along the drill hole.
- **MWRC22-011** – intercepted **26.62g/t over 1.5m from 48.8m** along the drill hole depth.

\*Drill intervals reported as downhole lengths as true widths have yet to be determined

The 2024 Program is anticipated to commence in early May 2024. The Company intends to conduct a targeted diamond-drill campaign, alongside detailed mapping, sampling, and a target generation field program. Scorpio Gold intends to disclose further details on the 2024 Program in the immediate short term. Scorpio Gold is building on an extensive history of exploration at Manhattan, a past-producing mine [acquired from Kinross in 2021](#). The project has over 1,200 historical drill holes comprising in excess of 100,000m of drilling, including two programs conducted by Scorpio Gold in 2021 and 2022. Over the past months, the Company has worked to build an updated internal resource estimate based upon this historic data and intends to work towards putting out a 43-101-compliant resource on Manhattan by the end of 2024.

Scorpio Gold is currently conducting an internal review of the [2018 Mineral Ridge updated feasibility study](#), exploring optionality with regard to updating the study based upon current gold prices and economic conditions. With the amalgamation of Altus Gold, the consolidated opportunity with the Northstar target presents a renewed potential to significantly increase the resource at Mineral Ridge, all while leveraging the mine's established infrastructure and permitting, including water rights.

## About Scorpio Gold Corp.

Scorpio Gold holds a 100% interest in two past producing mines, the Manhattan Mine and the Mineral Ridge Mine, both located in the Walker Lane Trend of Nevada, USA. Scorpio's Manhattan District comprises the advanced exploration-stage Goldwedge Project, with a 400 ton per day gravity mill. Adjacent to Goldwedge is the 4,300-acre Manhattan Project, centered on two past-producing pits, acquired from Kinross in 2021. The consolidated Manhattan District presents an exciting late-stage exploration opportunity, with over 100,000m+ of historical drilling, with significant resource potential, alongside valuable permitting. Scorpio Gold also holds a 100% interest in the Mineral Ridge gold project located in Esmeralda County, Nevada. Scorpio produced over 222,440oz of gold at Mineral Ridge between 2010 and 2020. With a proven and probable resource, valuable permits, water rights, infrastructure, and the recently acquired adjacent Northstar exploration target, Mineral Ridge has significant near-term development potential.
